

1

Write as a numerical expression.

4 times the sum of 5 and 6

5.OA.2

2

Write as a numerical expression.

24 minus 6, all divided by 3

5.OA.2

3

Write as a numerical expression.

13 plus the product of 7 and 4

5.OA.2

4

Write as a numerical expression.

the quotient of 30 and 3

5.OA.2

5

Write as a numerical expression.

the product of the quantities
16 minus 12 and 4 plus 5

5.OA.2

6

Write as a numerical expression.

the product of the quantities 4
plus 7 and 6 times 2

5.OA.2

7

Write as a numerical expression.

5 times the quotient of
28 and 4

5.OA.2

8

Write as a numerical expression.

15 minus the quotient of
49 and 7

5.OA.2

9

Write as a numerical expression.

18 less than the sum of
22 and 3

5.OA.2

10

Write as a numerical expression.

the product of the quantities 6
plus 3 and 28 minus 19

5.OA.2

11

Write as a numerical expression.

$\frac{1}{2}$ of 32 divided by 8

5.OA.2

12

Write as a numerical expression.

16 divided by the quotient of
36 and 9

5.OA.2

13

**Write the numerical
expression in words.**

$$2 \times (15 - 9)$$

5.OA.2

14

**Write the numerical
expression in words.**

$$(18 + 4) \div 11$$

5.OA.2

15

**Write the numerical
expression in words.**

$$24 \div (3 \times 4)$$

5.OA.2

16

**Write the numerical
expression in words.**

$$(23 - 9) \times 14$$

5.OA.2

17

**Write the numerical
expression in words.**

$$4 \times (8 \div 2)$$

5.OA.2

18

**Write the numerical
expression in words.**

$$9 \div 3 \times (12 - 4)$$

5.OA.2

19

**Write the numerical
expression in words.**

$$6 \times 7 - 33$$

5.OA.2

20

**Write the numerical
expression in words.**

$$5 \times (70 \div 7)$$

5.OA.2
